Survey says:

FSU 23, UF 16

Nearly 500 Tallahassee-area football experts have weighed in on the Voices Survey and their prediction is this: Florida State University will beat the University of Florida by a score of 23-16.

Relatively few football fans were willing to predict a blow-out for either side. A few fans picked FSU by scores such as: 47-20 or 42-7.

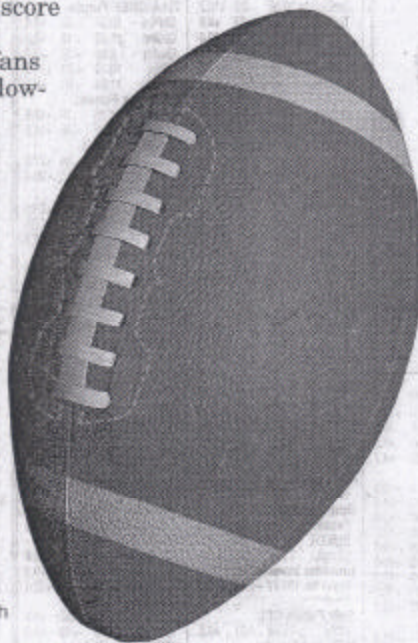

Conversely, some Florida faithful predicted UF by scores such as: 42-14 or 40-7.

FSU pickers outnumbered UF pickers by a 5 to 3 margin.

To have your opinions on more serious topics presented to local leaders, click on www.voices2004.com and complete a short demographic survey.

Kerr & Downs Research

Editor's Note: The Tallahassee Democrat has been working with Kerr & Downs Research to create a survey that reflects the local demographics, making it especially useful to decision-makers. But sometimes, like today, it's just for fun.
